

OUR WETLAND SERVICES

At NTS, your sustainability is our priority. We offer a full range of wetland services to meet the needs of private industry, local units of government, and private land owners.

Wetland regulations are complex and require in-depth knowledge and certification. NTS wetland professionals include staff who are certified by the Society of Wetland Scientists as Professional Wetland Scientists. NTS staff also hold certification from the Minnesota Wetland Delineator Certification Program to perform wetland delineations.

NTS specializes in wetland services to the Upper Midwest and has extensive Northeastern Minnesota project experience. NTS wetland experience includes projects in mining, energy, transportation, residential/commercial and local/regional planning.

NTS is the Iron Range's only locally-based, full-service environmental science and engineering company. Headquartered on the Iron Range since 1985 with a focus on northeastern Minnesota, we are committed to providing world-class science and engineering to our local customers. We believe in sustaining the local economy by utilizing local workers and vendors.

Our services include environmental & geotechnical consulting; engineering & engineering support services; data management; water resource services; and site assessment & investigation. These services are provided to industrial, municipal, and governmental clients.
